DCS-932L DAY & NIGHT WI-FI CAMERA

Features

Premium Resolution and Visibility

- High quality VGA CMOS sensor
- Supports M-JPEG video codecs
- 4x digital zoom for close-up viewing
- Built-in microphone¹

Security

- Motion & sound detection triggers e-mail/push alert notifications
- Save snapshots to your mobile device

Ease of Use

- Uses Wireless N technology so you can install the camera anywhere with ease
- WPS support for easy wireless connection

Convenient Control with mydlink® Support

- mydlink Lite app support for iPhone, iPad, Android devices and Windows phone²
- mydlink portal for easy viewing and management

Overview

The Day & Night Wi-Fi Camera (DCS-932L) is a video surveillance solution for your home or small office. The DCS-932L is a standalone surveillance camera that requires no special hardware or software, and can run independently even without a PC and it even includes sound & motion detection. Send e-mail notifications with snapshots whenever sound or motion is detected using just the DCS-932L and an Internet connection. You can even customize areas and volumes to monitor for motion or loud noises - helping you keep watch over entryways or sensitive areas of a room. Night time monitoring is possible with the built-in infrared LEDs which allow for night time viewing of up to 16 feet, enabling round-the-clock monitoring of a home or small office. Add a mydlink Camera Recorder (DNR-202L) for hassle-free recording of up to 4 D-Link Wi-Fi Cameras for a scalable solution for recording and storing video³.

Convenient Access Anytime, Anywhere with mydlink®

Enhanced with mydlink® support, the Day & Night Wi-Fi Camera makes it easy and convenient for you to look after your family, pets, home or small business. With a mydlink enabled camera, you can stay connected to everything you love from anywhere, anytime. Access your camera through the mydlink mobile app or website to view and manage your camera through your smartphone, tablet, laptop or desktop, no matter where you are.
