Product Highlights

Transform Your Mobile Device Into a Baby Monitor[1]
Whether you're at home or away at work, you can conveniently watch over your baby on your iPhone®, iPad®, or Android™ mobile device

mydlink Baby App
The free mobile app gives you effortless access to advanced features like 2-way audio, notifications, lullabies, snapshots and more

View at Home or on the Go
Place your camera anywhere in your home or take it with you. Keeping an eye on your baby has never been easier.

Keep an eye on your little one with the DCS-800L Wi-Fi Baby Monitor, no matter where you are. This portable camera transforms your mobile device into a unique and versatile baby monitor. It includes a wide array of features to help you care for your child, including instant push alerts, motion and sound detection, night vision and 2-way audio. It can even play gentle lullabies to help ease your baby to sleep!

Peace of Mind Anywhere, Anytime
The Wi-Fi Baby Monitor is specially designed to make it easy for you to care for your baby. Built for all-day monitoring, the Wi-Fi Baby Monitor turns on night vision automatically when it gets dark, giving you a clear picture day or night, so you can keep an eye on things anytime. It's perfect for use in the home, or even when you're away; it's mydlink-enabled, which means that you can check on your baby remotely over the Internet.

Sophisticated Technology Helps Keep You Informed
The Wi-Fi Baby Monitor can send you notifications to alert you to specific events such as detected movement or loud noises, like your young one crying. You can easily check in with the mydlink Baby App and comfort your baby with the sound of your voice through the built-in speaker.

Features

• Night vision with infrared LEDs that turn on automatically when it gets dark

• 802.11n wireless lets you place the camera virtually anywhere[2]

• Can be powered by an external USB battery[3]

• 5 soothing lullabies built-in

• Interchangeable accent color rings

Intelligent Baby Monitoring

• Sound detection alerts you of loud noises, such as your baby crying

• Motion detection lets you know if the camera detects movement

• Notifications can be sent to your mobile device for detected events

• Two-way audio lets you hear your baby and allows you to respond and calm your child

Convenient Control With Your Mobile Device

• The mydlink Baby app helps you set up your device and gives you easy access to all functions.

• The free mydlink Baby app is available for iPhone, iPad and android devices

• Also compatible with the free mydlink Lite app, available for iPhone, iPad, Android and Windows devices

Perfectly Portable for Instant Monitoring Anywhere

In addition to normal home usage, you can also take the Wi-Fi Baby Monitor with you when traveling with your child, even when there is no available Internet connection. Just connect your mobile device to the Wi-Fi Baby Monitor's wireless network for instant local monitoring, making it perfect for family vacations or just visiting friends. You can even connect it to an external USB battery[3] for total portability!
mydlink™ Baby App

Getting started is a snap! The free mydlink Baby app for iPhone, iPad and Android mobile devices not only guides you step-by-step through the setup process, but also gives you an easy to use interface for all the advanced features of the Wi-Fi Baby Monitor. Check on your baby at a glance; pinch to zoom with ease. You can even take snapshots and video clips and save them directly to your mobile device!
