

Create On/Off Schedules

Turn On/Off with mydlink® Home App

Push Alert Notifications

WPS & Mobile App for Easy Setup

DSP-W110

## WI-FI SMART PLUG

mydlink® Connected Home Series

### Features

#### Home Automation

- On/off smart remote power control
- On/off power scheduling

#### Ease of Use

- Connects to your home Wi-Fi network without requiring an additional hub
- WPS support for easy wireless connection
- Mobile app enabled setup
- Electrical rating of 120V/15A/1800W (for indoor use)

#### Convenient Control with mydlink Support

- mydlink Home app support for iPhone, iPad, and Android devices<sup>1</sup>
- Control and manage remotely using just your mobile device

### Overview

The mydlink® Wi-Fi Smart Plug (DSP-W110) is a compact and easy-to-use device that allows you to monitor and control your home's electronic devices from anywhere. Use the free mydlink® Home app to turn devices on or off, create on/off schedules and enable push alert notifications when a device has been turned on/off. The mydlink Home app will allow you to switch your device on or off remotely and change your schedules on-the-go, so you don't have to worry about leaving devices on when you're away.

### Create Your Smart Home with mydlink® Home Products

D-Link Connected Home products work together with hundreds of device combinations to secure, connect and automate your home. Control and manage your Wi-Fi Smart Plug through the mydlink Home app using your tablet or mobile phone, no matter where you are, or pair your smart plug with other D-Link Connected Home products to turn on lights when motion is detected, begin recording clips<sup>3</sup> as soon as you turn off the lights and more<sup>4</sup>.

The Wi-Fi Smart Plug Also Works With:

Turn devices on & off using simple voice commands with Amazon Echo<sup>2</sup>

Connect your Wi-Fi Smart Plug to other IFTTT enabled products & apps in fun and useful ways
